Year of completion: 2016

Percentage: 76.50%

## INTERNSHIPS

### **ISP**

Internshala, Virtual

Jun 2019 - Present

Promote some for the online courses in my college and got my friends registered to the internshala app

## TRAININGS

### **Python Training**

INTERSHALA, Online

Oct 2018 - Nov 2018

## PROJECTS

### **Portfolio Website**

Nov 2019 - Apr 2020

<http://umor.netlify.app/>

I used css and html for the portfolio website, the photography website and travel website (its inside the portfolio/projects) and for the virtual library i have used bootstrap 3 and php for the backend (backend doesn't work since its hosted to netlify)

### **Spherethor**

Nov 2019 - Dec 2019

developed a minimal game which comprises of a sphere and a lane. There are obstacles on the lane, the player just have to avoid the obstacles and cross the lane. It comprises of three level.

### **IBM Watson Bot**

Feb 2019 - Feb 2019

<https://assistant-chat-eu-gb.watsonplatform.net/web/public/1a48b09c-fee5-42e4-8b8e-5a4e15f362e3>

I have built a chat bot that can carry out a conversation with general people. Its a online flowershop bot that can handle the basic conversation like delivery enquiry and some useful recommendation for flowers for some special occassion
